Last Meeting

???????????????

Well what can I say, it was a Total Fire Ban day so the activity never happened so there in lies the problem, nothing to report. If only it was that easy to cancel some days, the world would be a better place.

Housekeeping

• Flower Show.

October will be here in no time so it is time to start organising. Any one wishing to be part of the organising team please contact the secretary (not for much longer) Helena via email helenal@pacific.net.au

• Leadership Training

Ok all you budding leaders, need training? Well Nature Watch holds leadership training courses, want to be involved well then contact

• Total Fire Ban

Please remember our policy on days of Total Fire Ban. When the day of an activity falls on a day of Total Fire Ban the activity will be cancelled. This is for a couple of reasons, your safety and well being and also on these days the Park Staff are kept busy carrying out fire related duties and more than likely will not be available to attend the activity. It is also up to the individual member to make a decision as to his or her ability to participate in the advertised activity on other days when the weather is not being kind to us, that goes for days of high temperatures or the other end of the scale during the colder months.

• AGM 2009

Please think long and hard as to who you would like to see take up the various positions as office bearers for the group. The last 12 months has seen the group without a president for the first time that I can remember so lets remedy that, also the secretary and treasurer positions are up for grabs, so don't be shy and either put your hand up or put up someone elses. The other item to think about is what activities you would like to see on the agenda for the next 12 months
